Cyber Security Professional

Results-driven Cybersecurity professional with a strong foundation in full-stack development, uniquely positioned to bridge the gap between security operations and technical implementation. Combines hands-on coding expertise with security-first principles to identify vulnerabilities, automate threat detection, and develop custom solutions that strengthen organizational defenses. Leverages programming skills in HTML, CSS, Python, JavaScript, and React Basics to analyze and build security tools, streamline incident response workflows, enable comprehensive risk assessments, and implement automated security controls for remediation.

SKILLS

Soft skills: Problem Solving • Communication • Adaptability • Customer Service • Time Management

Tools & Platforms: Trello • GitHub • Visual Studio Code • Splunk (basic) • Wireshark • Google Workspace • Microsoft Office Suite • Zoom • Slack

Technical Skills: HTML • CSS • JavaScript (beginner) • Network Fundamentals • Security Awareness • Incident Reporting • Risk Assessment • System Troubleshooting • Documentation

EXPERIENCE

Technology Intern — i.c.stars

Chicago, IL — Sep 2025 - Present

- Engaging in a 16-week immersive technology and leadership program focused on software development, cybersecurity fundamentals, and project management.
- Collaborating with a team of interns to design and implement real-world business solutions using Agile methodology and daily stand-ups.
- Gaining hands-on experience with HTML, CSS, JavaScript, and React while developing front-end web applications and learning secure coding practices.
- Participating in professional development sessions emphasizing leadership, communication, and client-presentation skills.

- Partnering with corporate sponsors to solve technology challenges and present deliverables in a fast-paced, deadline-driven environment.

Amazon Warehouse Associate — Amazon Fulfillment Center

Chicago, IL • June 2023 – September 2025

- Picked, packed, and scanned 200+ customer orders daily using handheld scanners to ensure 100% order accuracy and timely shipment.
- Operated pallet jacks and other warehouse equipment to transport materials safely and efficiently, maintaining a clean and organized workspace.
- Collaborated with a diverse team to meet daily fulfillment targets and exceed performance goals by consistently ranking in the top 10% for productivity.
- Identified and reported damaged or misplaced inventory, helping reduce order discrepancies and improve overall inventory accuracy.
- Supported process improvements by suggesting layout changes that improved workflow and reduced average order completion time by 5%.
